

MARRIAGES REGISTERED IN THE TOWN OF WINDHAM: 1887-2001
Records are from the Town of Windham Annual Reports

The first records in the Town Report appeared in 1887. This index starts with that Report and includes marriages through 2001. The first table below is sorted by the husband's name. A second table, identical in every way but sorted by the wife's name, starts on page 53. Some marriages late in the year are entered in the next year's Report. As an example, an entry reading 08/27/1989(1990) indicates that the wedding took place in 1989 but is listed in the Report of 1990. An entry marked "[sic]" indicates an apparent discrepancy in a spelling, and that the entry has been copied exactly as it appears in the Report. Notes, indicated by a superscript number (⁴) appear on the last page.

NOTES

1. The copy worked from is faint. Some letters or digits are guesses.
2. This entry is dated "Dec. 27" at the top of a page on which all other entries are for 1966. But this entry appears over the heading "1966", leaving it questionable about whether the year of the event is 1966 or it is a left-over from an earlier year..
3. Note the date in the Report is one line higher than it should be, which puts it even with the wife of the previous couple.
4. This listing is followed by "Reaffirmation".
5. This listing is followed by "Copy", which indicates that a copy of the marriage certificate has been filed with the Town but the marriage did not take place in Windham.
6. This listing is followed by "Remarriage".

7. This same couple is listed in two different Reports. Which date of marriage is the correct one is not indicated. The second is not listed as a "Reaffirmation"
