Line 3:

How can I pay?

- We will have paper order forms for those who wish to pay cash or check. Checks will be made out to FLOW.
- For those who wish to pay online by credit card, please visit the FLOW website www.flowwindham.org

Can I replace my old brick?

No, you cannot replace an existing brick. If a new one is purchased, they will both appear.

Will my existing brick stay where it is?

We cannot guarantee that existing bricks will remain in their current location. We will create a new brick map after the project is completed. (The current brick map can be found at REF 022.3 right under the Value Line.)

If existing bricks are damaged during the project, we will replace them.

How long are you selling bricks?

We do not have a fixed timeline yet. We will sell bricks up until a couple of months prior to the beginning of the project, so at a minimum into 2022.

When will the new bricks be placed?

We do not have a specific timeline for the project yet. It will depend on our budget passing at town meeting and the trajectory of our fundraising efforts. The earliest it could be completed would be sometime in the Fall of 2022.
